

Legislative Principles

*Established by the District's
Legislative Advisory Committee
in collaboration with the
Board of Education.*

**We value
public education.**

Our District supports public education and supports legislation that strengthens public education in Missouri.

**We believe curriculum
decisions are best made
by our community.**

Our District seeks to develop students who are empathetic and culturally competent. We support the right for local districts to define their own curriculum in pursuit of these goals and oppose legislation that interferes with that right.

**We support local
control of local
tax dollars.**

Our District opposes legislation interfering with the right of local school districts to control and manage local tax dollars.

About Us

The School District of Clayton is a nationally recognized, award-winning district with a proud tradition of academic excellence. From pre-K through high school, students benefit from one of the top public school districts in the Midwest, where they are inspired to love learning and embrace challenges in a rich and rigorous academic environment. This experience is further enhanced by outstanding schools and specialized programs that consistently earn state and national recognition for academic excellence, innovative programming and a commitment to student success.
