August 28, 2015 PD Day:

- Marzano keynote speaker Phil Warrick (**Milena is trying to book him!!**)

Other info from District PDC meeting today:

Milena has given approval for us to begin offering Tech sessions (Gene creates session, sends out to faculty, those interested sign up and show up) that will be two class periods long. Subs will be provided, but hopefully teachers will have to only miss one class 'cause the other will be a planning period/lunch/free period.

The high school should think of summer PD topics sessions that line up with our SIP goals, AdvancEd areas, etc. and we will be able to conduct a survey this winter to establish topics, styles, and times that will get people to actually sign up and show up!

For our March 9 faculty meeting, Sean Doherty would like 15 minutes to provide an update on the Missouri Evaluation system and the work of the Evaluation Cadre.
