

SPECIAL EDUCATION

at

CLAYTON HIGH SCHOOL

CHS students with an Individualized Education Plan (IEP) are provided support on a continuum of services based entirely on the individual student's IEP. Special education teachers collaborate with general education teachers about accommodations and modifications in the classroom.

CLASSES

STUDY SKILLS

Academic strategies course designed for students who have an IEP and need additional assistance learning the basic strategies for academic success. This course is designed to facilitate learning through strategies in organization and time management, test taking, note taking, and self-advocacy, as well as learning strategies in reading comprehension, written expression, math, and vocabulary development. IEP goals, skill development, related services, and academic support are implemented and monitored during this course.

CO-TAUGHT CLASSES

General education and special education teachers teach (plan, instruct, and assess) designated CHS math and English courses collaboratively. Instruction in IEP goals is embedded into class instruction.

ESSENTIAL CLASSES

English, Math, Science, and Social Studies Essentials provides direct instruction in skills for real world environments along with classroom enrichment activities to support life skills and transitional goals. These course are designed to build a solid foundation of everyday reading, writing and math skills.

TRANSITION TO WORK

Courses provide direct instruction in vocational skills in real work environments by providing instruction, support, and feedback to students as they learn workplace-related skills and expectations. Students May participate in on campus jobs or the Community Based Vocational Instruction (CBVI) program, students are provided direct instruction on vocational skills in real work environments.

POST SECONDARY

Students participate in activities to prepare for life after high school. Activities may include developing goals in education, employment, and independent living; transition assessments and inventories; self-determination lessons.
