

**School District of Clayton Board of Education  
Resolution October 2022**

A Resolution of the Board of Education, School District of Clayton, Clayton, Missouri, to declare support for sensible gun safety legislation.

Whereas the School District of Clayton Core Values affirms that "We promote...innovation by encouraging ideas and practices that foster adaptability (and) accountability by aligning our actions and resources with our stated objectives and taking responsibility for the outcomes";

Whereas gun violence, and threats of gun violence, in schools undermine the sense of security that all students should have in their learning environment;

Whereas gun violence presents a clear and present danger to the students, parents, educators, administrators, and support staff of the School District of Clayton;

Whereas since the school shooting in Columbine in 1999, there have been numerous other school mass shootings, including those in Red Lake (MN), Lancaster (PA), Blacksburg (VA), Chardon (OH), Sandy Hook (CT) Broward County (FL), Uvalde (TX), and St. Louis (MO), in addition to many other school shootings across the country that have taken scores of young lives;

Whereas this year alone (January 1, 2022-October 26, 2022), there have already been 40 school shootings with injuries and deaths at K-12 schools, resulting in 122 injuries and 34 deaths;

Whereas the American Medical Association adopted a policy calling gun violence a "public health crisis";

Whereas students have seized the conscience of the nation with their demand for strong action to reduce preventable gun violence and to deliver an unmistakable message that now is the time to pass commonsense gun safety laws; and

Whereas sensible gun safety legislation will strengthen protections for our schools and students by preventing dangerous individuals from attaining firearms; and

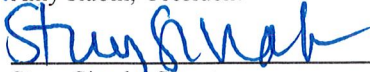

Whereas it is the belief of the Board of Education of the School District of Clayton that we must be leaders in innovative and meaningful policy to confront gun violence.

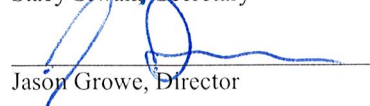

Now, therefore, be it resolved, that the Board of Education of the School District of Clayton supports sensible gun safety legislation to protect students and staff, including:

1. implementing enhanced background checks for assault weapons including raising the age to 21 to purchase assault weapons;
2. strengthening universal background checks for the purchase of firearms;
3. banning the purchase of semi-automatic rifles and of any accessories (e.g., Bump Stocks) designed to increase a gun's rate of fire;
4. banning gun sales to domestic violence offenders;
5. preventing access to firearms for individuals who through mental health evaluation or diagnosis could be considered a danger to themselves or others;
6. increasing funding for programs and school staffing (e.g., social workers, counselors, nurses and psychologists) that support student mental health and social-emotional well-being and learning; and
7. providing funding for thorough gun violence research including the collection of data necessary to track, monitor, understand, and prevent the extent of gun violence in America.

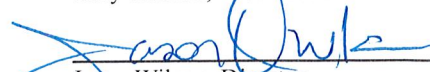

Adopted this 26th day of October 2022.
