### Career Journal Scoring Guide

	0	1	2	3
<b>Correct Name of Career</b> , upper case letters as a heading				
<b>Education and/or Training Required</b> , accurate and complete				
<b>Responsibilities and Daily Activities</b> , accurate and complete				
<b>Self-Reflection</b> , your level of interest why you would or would not pursue this career				
<b>Documentation</b> , APA format correct, one reliable source				

total \_\_\_\_\_/10

Please note:

- Your journal should not exceed one page.
- Know your audience, provide as much detail as necessary for a student just like you who is not in the class to understand. If you can't understand the vocabulary, they can not either!
- Self-Reflection is the most important part! The purpose for this activity is for you and a direction you might see yourself in Biomedical Fields in your future. Make it obvious that you have personalized the information and given sincere, thoughtful reflection as to whether this field is for you!
- Always share these as a google doc. Create a folder in google drive for "Career Journals", this will be your digital portfolio
